He says that the act of Congress gives preemption only to such ands ceded as are not required. The first to be offered for public sale are no more to be opened to preemption. By an act of Congress the military reservation at Fort Leavenworth cannot be taken by settlers under claim of preemption, and such claims will be void in law, and can confer no right on which to dehand a patent from the Commis-sioner of Public Lands. Bosros, Aug. 22.-At 3 o'clock this afternoon a five and a-half story granite building, forming the last end of Tilden block, Broad street, opposite the Custom house, fell with a tremendous crash. The rear wall alone is left standing. The building was occupied by Hanneman, Haren & Co., Druggiste, and W. A. Lewis & Bro., dealers in Preserved Meats. Fortunately warning was given to escape which all did except one; he is buried in the ruins Two or three persons passing on the side walk at the time are reported to have been killed. After the falling of the walls a fire burst out from the steam engine in the basement, a large quantity of combustible drugs being consumed. The rumor spreading around that many were buried in the ruins caused thousands to flock to the spot. The firemen were promptly on hand, and now,

PHILADELPHIA MEDICAL HOUSE.—Established 15 years ago by DR KINKELIN. The oldest, surest and best hand to cure all forms of secret discusses of the skin, and solitary habits of youth, is DR. KINKELIN, N. W. corner of Third and Union streets, between Spruce and Pine, one and a half squares from the Exchange. Philindelphia.

Take Particular Notice.—There is a habit which boysteach each other at the academy or college—a habit indulged in when by themselves, in solimida, growing up after the boy to manhood, and which, if not abandoned in daetline, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this pernicious practice are aware of the consequences, until they find the nervous system is shaftered, feel strange and unascountable feelings, rague fears in the mind. The individual becomes feeble, he to unable to labor with accustomed vigor, or to apply his mind to study, his step in tarify and weak, be is dull and irresolute, the countennance is downess, the eves without natural instre, shamefacedness is apparent. These are symptoms which should machen the attention of those amiliarly affected.

If the victim be conscious of the cause of his decay, and having relinquished the odious princtice, he confirm under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prostration. If its emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfolded.

Too many think they will hug the secret to their ours hearts, and cure themselves. Alast how often is this labor delusion, and how many a promising youth, who migrathere been an ornament to society, has teded from the earts.
